### Fiscal Policy Challenge, 2022-2023 Edition

---

# Fiscal Policy Challenge, 2022-2023 Edition

*CIRANO is pleased to announce the launch of the new edition of the Fiscal Policy Challenge.*

The objective of this challenge is to find innovative and rigorous solutions to current public policy issues. Many sectors of activity are challenged by the economic changes that are occurring and innovation presents a unique opportunity to increase the productivity of the Quebec economy! It's in this context that this year's theme, **the potential of innovation**, was chosen.

The question is: ***How can innovation contribute to facing the major societal challenges of Quebec?***

## **Information and rules of the contest**

The contest is open to master's students or students who have completed 60 or more credits in a bachelor's degree in economics, political science, taxation or any other related field.

For the 3 winners: Three prizes to be shared for a total amount of \$4000, as well as the chance to present the fruit of their thoughts to the ministère des Finances du Québec and the possibility of an internship at the ministère des Finances.

Registration deadline: March 31, 2023

## 36th Annual Meeting of the Canadian Macro Study Group (CMSG)

 Friday, November 11, 2022

The 36th Annual Meeting of the Canadian Macro Study Group (CMSG) will be held on November 11-12, 2022 in Montréal. The meeting is organized by the Department of Economics at the École des Sciences de la Gestion, Université du Québec à Montréal (ESG-UQAM). The goal of the CMSG is to encourage exchanges and collaborations among Canadian researchers in macroeconomics and to provide a platform for Canadian researchers, especially young researchers, for the presentation of their work.

## **Algorithmic prediction: consumer and competition protection issues**

 Wednesday, November 16, 2022

Frédéric Marty, CNRS - Université Côte d'Azur research fellow and CIRANO associate researcher, will give a conference on the advantage linked to the control of data flows. Based on the analysis of the decisional practice of the US Federal Trade Commission, the researcher considers two dimensions of this question. First, what are the risks that may result from undue data mining to the detriment of consumers? Second, can these strategies be the source of an unfair competitive advantage and if so, how can they be remedied?

## **Workshop: Joint Montreal Macro Brownbag**

 Wednesday, November 30, 2022

The tenth edition of the joint brownbag for macro research in Montreal will take place on Wednesday November 30 at CIRANO. The Joint Montreal Macro Brownbag gives Montreal-based researchers in macroeconomics the opportunity to meet and discuss each other's work. The event brings together researchers from all economics departments in Montreal and promotes their collaboration. This edition will include 5 presentations with Matteo Cacciatore (HEC Montréal), Étienne Lalé (UQAM), Jay Hyun (HEC Montréal), Guillaume Sublet (Université de Montréal) and Jean-François Rouillard (Université de Sherbrooke).
